- BS in Software Engineering

2018-2020  
GOVT. DEGREE COLLEGE FOR WOMEN

- FSC in Computer Science

## SKILLS

- Python
- Power Bi
- Html, CSS , React
- JavaScript, Node JS
- MS Office
- Communication & Collabroation

## PROJECTS

### Cyber Razor

Final Year Project | Jinnah University for Women

- Developed a real-time SOAR (Security Orchestration, Automation, and Response) application to detect, analyze, and respond to network threats.
- Integrated threat intelligence, automated incident-response workflows, and continuous monitoring to enhance cybersecurity posture.
- Built using Python, Wazuh, React, and Node.js.
- Focused on mitigating threats such as DDoS attacks, phishing, and malware, ensuring network integrity.
- Live Demo: <https://cyberrazor.vercel.app/>

### Unit Converter

- It's a sleek and interactive Streamlit web app that allows you to convert between different measurement units instantly. Whether you need to switch between meters and miles, Celsius and Fahrenheit, kilograms and pounds, or even time and speed, this app has you covered.
- Live Demo: <https://convert-your-unit.streamlit.app/>

## WORK EXPERIENCE

### Inspired Solutions Provider

#### Social Media Executive

September 2024 - December 2024 (4 months)

As a Social Media Executive Intern at Inspired Solutions Provider, I was responsible for managing and enhancing the company's digital presence across multiple platforms. My role involved creating engaging social media content, analyzing campaign performance, and developing strategies to boost brand visibility and audience engagement.
